#### 1. Aims

The Greater Peterborough areas still has higher than national average teenage pregnancy rates where recent Office for National Statistics data shows that 31 per 100,000 women aged 15 to 17 got pregnant in the three months to March 2018, the latest period for which data is available which was significantly above the England average of 17 in 100,000 during the same period, and amongst young people the Safer Lives report of 2015 estimated that 24% of girls and 18% of boys had been in abusive relationships. The aims of relationships and sex education (RSE) at our school are to:

- Provide a framework in which sensitive discussions can take place.
- Prepare students for puberty, and give them an understanding of sexual development and the importance of health and hygiene.
- Help students develop feelings of self-respect, confidence and empathy.
- Create a positive culture around issues of sexuality and relationships.
- Teach students the correct vocabulary to describe themselves and their bodies.
- We support the DfE ambition for all young people to stay safe and prepared for life in modern Britain. This ambition is realized through the development of this policy, which covers our current statutory duty to provide age appropriate Relationships & Sex Education for the secondary phase of students education.

We aim to be fully inclusive in our teaching of RSE within the college and look for all students to be in a position to lead fulfilling and happy lives whilst being aware of any issues that might impact upon this.

#### 2. Statutory requirements

This policy and our curriculum have been developed in response to the DfE Guidance on Relationships and Sex Education, the new statutory curriculum framework from September 2020.

As a secondary academy school we must provide RSE to all students as per section 34 of the Children and Social Work Act 2017 and the new statutory Relationships Education, Relationships and Sex Education (RSE) and Health Education 2020.

In teaching RSE, we are required by our funding agreements to have regard to guidance issued by the Secretary of State as outlined in section 403 of the Education Act 1996.

We have a duty under the Equalities Act 2010, to ensure that our provision is inclusive of all pupils. We understand that a proportion of our students will not identify as heterosexual or cisgender (where their birth sex correlates to their gender identity). We recognise that all students will learn more about healthy relationships if RSE is fully inclusive.

We value the difference amongst our students and the wider community and seek to promote respect and understanding.

In order to ensure the RSE Curriculum meets the needs of all: Relationships and Sex Education (RSE) policy 2021

- We will teach about RSE themes relevant to all, and celebrate difference, enabling young people to respectfully question their views and those of others.
- We will encourage respect and positive communication, and discourage abuse and exploitation.
- We will not ask students to represent the views of any particular group, sexual orientation or gender identity to their peers, unless they choose to do so.

In relation to those with special educational needs or disability (SEND), we will ensure our RSE programme includes them and is appropriate to them.

#### 3. Policy development

This policy has been developed with regards to the DfE Guidance on Relationships and Sex Education, the new statutory curriculum framework from September 2020. The policy development and consultation process involved the following steps:

- 1. Review The PSHE & Citizenship Co-ordinator pulled together all relevant information including relevant national and local guidance and the statutory curriculum framework.
- 2. Staff consultation Year Leaders were given the first opportunity to look at the curriculum and make recommendations followed by asking teaching staff to do the same via year leaders. All staff are informed of the curriculum being followed and encouraged to feedback on the curriculum.
- 3. Parent/stakeholder consultation parents and any interested parties are informed about the RSE curriculum and encouraged to contact the College and discuss the curriculum and any queries they may have. The policy is open for all parents to see and discuss.
- 4. Student consultation we use the student voice group and an Equalities group to gain feedback from students and asses what students want from their RSE. Students are directly informed of the entire RSE curriculum across Years 7 to 11 and encouraged to contact the College and discuss the curriculum and any queries they may have.
- 5. Ratification the policy will be shared with governors and ratified. With significant changes in the curriculum currently taking place, the policy and curriculum will be working documents and might need to go undergo alterations to take these changes further into account.

#### 4. Definition

RSE (Relationship and sex Education) is lifelong learning about physical, moral and emotional development. It is about the understanding of the importance of a stable and loving relationship. It is also about the teaching of sex, sexuality, and sexual health as well as preparing students at school for opportunities, responsibilities and experiences of later life. It is not about the promotion of sexual orientation or sexual activity. Our curriculum is also designed to support children growing up in an increasingly complex and digital world. Whilst the internet is an overwhelmingly positive development in our lives, it does present significant challenges, particularly for young people. The dominance of social media, the prevalence of cyberbullying and the risk that children learn about relationships from untrustworthy sources – we aim to support children to make the right decisions and keep themselves safe and happy. The content and delivery of RSE at the College will be conducted in an age appropriate way.

#### 5. Curriculum

An overview of our current curriculum is set out as per Appendix 1, but we may need to adapt it as and when necessary.

We have developed the curriculum following the statutory guidance, students and staff, taking into account the age, needs and feelings of students. If students ask questions outside the scope of this policy, teachers will respond in an appropriate manner so they are fully informed and do not seek answers online.

For more information about our curriculum, see our curriculum map in Appendix 1.

#### 6. Delivery of RSE

RSE is taught within the timetabled Skills for Life curriculum, assemblies and tutor time activities. Biological aspects of RSE are taught within the science curriculum. In year 7 this covers the basics of sexual reproduction and sexual organs. After this students focus mainly on the genetic aspect of reproduction. Aspects of RSE might also be found in other areas, such as, but not exclusively, English texts or Sociology.

Students might also receive stand-alone sex education sessions delivered by a trained health professional and during off timetable activities.

For more information about our RSE curriculum, see Appendix 1.

These areas of learning may be taught within the context of relationships, which can involve different family circumstances. We aim to ensure that there is no stigmatisation of any relationship type or home circumstances (families can include single parent families, LGBT parents, families headed by grandparents, adoptive parents, foster parents/carers amongst other structures) along with reflecting sensitively that some children may have a different structure of support around them (for example: looked after children or young carers).

#### 7. Roles and responsibilities

#### 7.1 The Governing Board

The Governing Board will approve the RSE policy and hold the Headteacher to account for its implementation.

#### 7.2 The Headteacher

The Headteacher and PSHE & Citizenship Co-ordinator are responsible for ensuring that RSE is taught consistently across the school and for managing requests to withdraw students from non-statutory components of RSE (see section 8).

#### 7.3 Staff

Staff are responsible for:

- Delivering RSE in a sensitive way.
- Modelling positive attitudes to RSE.
- Monitoring progress.
- Responding to the needs of individual students.
- Responding appropriately to students whose parents wish them to be withdrawn from the components of RSE that parents have the right to withdraw from.

Staff do not have the right to opt out of teaching RSE. Staff who have concerns about teaching RSE are encouraged to discuss this with the PSHE Co-Ordinator and or the Headteacher.

The timetabled lessons are taught by tutors to their tutor groups (there might be rare exceptions due to timetabling). Along with these staff, the following staff are also involved in teaching RSE through assemblies and monitoring lessons for each year group:

PSHE & Citizenship Co-ordinator and Year 7 Year Leader: Terence Cooper

Year 8 Year Leader: Ashley Gregory

Year 9 Year Leader: Dan Hewitt

Year 10 Year Leader: Darren White

Year 11 Year Leader: Adam Rothery

#### 7.4 Students

Students are expected to engage fully in RSE and, when discussing issues related to RSE, treat others with respect and sensitivity.

#### 8. Parents' Right to Withdraw

Whilst the Academy strongly encourages all students to participate in all aspects of RSE, we also acknowledge that parents and students do have the right to opt out of some aspects of RSE. In line with Section 34 of the Children and Social Work Act 2017, parents have the right to request that their child be withdrawn from some or all of sex education delivered as part of statutory RSE. Parents have the right to request to withdraw their child, up to and until three terms before the child turns 16.

There is no right to withdraw from Relationships Education or Health Education.

Parents or carers who have withdrawn their child from RSE will be asked to re-confirm their decision each year.

Requests for withdrawal should be put in writing using the form found in Appendix 3 of this policy and addressed to the Headteacher.

A copy of withdrawal requests will be placed in the student's educational record. The Headteacher or PSHE & Citizenship Co-ordinator will discuss the request with parents and arrange a meeting to examine the impact that a withdrawal from RSE might have and to inform parents as to what parts are non-statutory and statutory so parents know, in detail, what areas their child will still be taught.

The Headteacher or PSHE & Citizenship Coordinator will take any appropriate action as a result of this meeting.

Alternative work will be given to students who are withdrawn from sex education.

#### 9. Training

Staff are trained on the delivery of RSE as part of their induction and it is included in our continuing professional development calendar.

The Headteacher or PSHE and Citizenship Co-ordinator will also invite visitors from outside the school, such as school nurses or sexual health professionals, to provide support and training to staff teaching RSE.

#### **10. Monitoring Arrangements**

The delivery of RSE is monitored by Terence Cooper, PSHE & Citizenship Co-ordinator and each Year Leader as appropriate to their year group through: Planning scrutinies, book scrutinies, learning walks, student feedback.

Students' development in RSE is monitored by class teachers as part of our internal assessment systems.

This policy will be reviewed by Terence Cooper, PSHE & Citizenship Co-ordinator, annually. At every review, the policy will be approved by the Headteacher and ratified by the governing body.

## Appendix 1: Curriculum Map

### Skills for life Scheme of work

### Overall intent

To support students own, and others', wellbeing and attainment and help young people to become successful and happy adults who make a meaningful contribution to society.

TOPIC	STUDENTS SHOULD KNOW
Families	<ul> <li>That there are different types of committed, stable relationships</li> <li>How these relationships might contribute to human happiness and their importance for bringing up children</li> <li>What marriage is, including their legal status e.g. that marriage carries legal rights and protections not available to couples who are cohabiting or who have married, for example, in an unregistered religious ceremony</li> <li>Why marriage is an important relationship choice for many couples and why it must be freely entered into</li> <li>The characteristics and legal status of other types of long-term relationships</li> <li>The roles and responsibilities of parents with respect to raising of children, including the characteristics of successful parenting</li> <li>How to: determine whether other children, adults or sources of information are trustworthy: judge when a family, friend, intimate or other relationship is unsafe (and to recognise this in others' relationships); and, how to seek help or advice, including reporting concerns about others, if needed</li> </ul>
Respectful relationships, including friendships	<ul> <li>The characteristics of positive and healthy friendships (in all contexts, including online) including: trust, respect, honesty, kindness, generosity, boundaries, privacy, consent and the management of conflict, reconciliation and ending relationships. This includes different (non-sexual) types of relationship</li> <li>Practical steps they can take in a range of different contexts to improve or support respectful relationships</li> <li>How stereotypes, in particular stereotypes based on sex, gender, race, religion, sexual orientation or disability, can cause damage (e.g. how they might normalise non-consensual behaviour or encourage prejudice)</li> <li>That in school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including people in positions of authority and due tolerance of other people's beliefs</li> <li>About different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders to report bullying and how and where to get help</li> <li>That some types of behaviour within relationships are criminal, including violent behaviour and coercive control</li> <li>What constitutes sexual harassment and sexual violence and why these are always unacceptable</li> <li>The legal rights and responsibilities regarding equality (particularly with reference to the protected characteristics as defined in the Equality Act 2010) and that everyone is unique and equal</li> </ul>

## Appendix 2: By the end of secondary school students should know

## TOPIC STUDENTS SHOULD KNOW

Online and media	<ul> <li>Their rights, responsibilities and opportunities online, including that the same expectations of behaviour apply in all contexts, including online</li> </ul>
	About online risks, including that any material someone provides to another has the potential to be shared online and the difficulty of removing potentially compromising material placed online
	<ul> <li>Not to provide material to others that they would not want shared further and not to share personal material which is sent to them</li> <li>What to do and where to get support to report material or manage issues online</li> </ul>
	The impact of viewing harmful content
	• That specifically sexually explicit material e.g. pornography presents a distorted picture of sexual behaviours, can damage the way people see themselves in relation to others and negatively affect how they behave towards sexual partners
	That sharing and viewing indecent images of children (including those created by children) is a criminal offence which carries severe penalties including jail
	How information and data is generated, collected, shared and used online
Being safe	The concepts of, and laws relating to, sexual consent, sexual exploitation, abuse, grooming, coercion, harassment, rape, domestic abuse, forced marriage, honour-based violence and FGM, and how these can affect current and future relationships
	How people can actively communicate and recognise consent from others, including sexual consent, and how and when consent can be withdrawn (in all contexts, including online)

## TOPIC STUDENTS SHOULD KNOW

Intimate and	
sexual relationships,	<ul> <li>How to recognise the characteristics and positive aspects of healthy one-to-one intimate relationships, which include mutual respect, consent, loyalty, trust, shared interests and outlook, sex and friendship</li> </ul>
including sexual health	• That all aspects of health can be affected by choices they make in sex and relationships, positively or negatively, e.g. physical, emotional, mental, sexual and reproductive health and wellbeing
	The facts about reproductive health, including fertility and the potential impact of lifestyle on fertility for men and women
	That there are a range of strategies for identifying and managing sexual pressure, including understanding peer pressure, resisting pressure and not pressurising others
	That they have a choice to delay sex or to enjoy intimacy without sex
	The facts about the full range of contraceptive choices, efficacy and options available
	The facts around pregnancy including miscarriage
	• That there are choices in relation to pregnancy (with medically and legally accurate, impartial information on all options, including keeping the baby, adoption, abortion and where to get further help)
	<ul> <li>How the different sexually transmitted infections (STIs), including HIV/AIDs, are transmitted, how risk can be reduced through safer sex (including through condom use) and the importance of and facts about testing</li> </ul>
	About the prevalence of some STIs, the impact they can have on those who contract them and key facts about treatment
	How the use of alcohol and drugs can lead to risky sexual behaviour
	• How to get further advice, including how and where to access confidential sexual and reproductive health advice and treatment

## Appendix 3: Parent form: withdrawal from sex education within RSE
